

Pass out voting registration guides in areas targeted for your own political beliefs!

You can encourage similarly minded people to vote your way if you *target* areas where people are likely to agree with you, without having to debate people! (Even if you enjoy debating, it can slow you down). Some areas, such as apartment complexes, have a remarkable number of people who do not even know where to go to vote, hence the info provided here, including the “Georgia Poll Locator” phone number, can help people know what to do to vote.

You can do this with or without being in an organized group. Going door-to-door on your own makes it easy to fit into your schedule; you can go whenever you have time. It does not hurt if someone else visits the area again; different people are likely to be home. If you prefer to go with an organized group, there are many that would love your help.

This voting registration and polling place information guide is intended to be two fliers if printed double sided and cut in the center, so that is why page 3 is a copy of page 2 except the bottom half is on top.

Feel free to change it to your preference or location!

Created by Dr. Stuart Taylor of the Georgia State University Department of Physics and Astronomy. See:

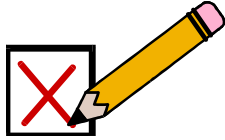

<http://www.chara.gsu.edu/~taylor/vote>

(and while there, check out the Georgia State University Astronomy group, which does monthly open houses at the Hard Labor Creek Observatory [HLCO], at

<http://www.chara.gsu.edu>

or <http://www.chara.gsu.edu/HLCO> for public telescope viewing from March to October. The Georgia State University Astronomy group also operates a six telescope optical “interferometer” with the world’s longest baseline, which you can read about at <http://www.chara.gsu.edu/CHARA/>)

The help of TJ improving the formatting is gratefully acknowledged.

VOTE in this year's Presidential Election
Tuesday, November 2, 2004!

Register to vote now!

Registration Deadline: October 4, 2004
